Skills

Programming: C, Python, Java

Frontend: HTML, CSS, JavaScript

Backend: Java, Python

Database: MySQL

Core: Data Structures, Object-Oriented Programming, Problem Solving

Projects

Token-Based Appointment & Queue Management System | *Java, HTML, CSS, JavaScript, MySQL*

- Developed a **token-based appointment and queue management system** for medical camps and Primary Health Centres (PHCs).
- Designed features for **patient registration, appointment scheduling, token generation, doctor management, and queue tracking**.
- Implemented digital record management to improve appointment organization and reduce patient waiting time.

Lost and Found Management System | *Java, HTML, CSS, JavaScript, MySQL*

- Developed a platform for users to **report, search, and manage lost and found items**.
- Implemented structured item information and search functionality to help users identify and recover misplaced belongings.

Experiences

Java Training Program

2026

Tap Academy

- Participated in an intensive **Java training program** focused on programming fundamentals, problem solving, and coding interview preparation.
- Practiced Java programs involving **loops, arrays, strings, methods, conditional statements, and basic problem-solving techniques**.

Achievements

- Completed a **Data Analytics certification**, strengthening skills in data cleaning, visualization, Excel, SQL, and analytical techniques.
- Completed a professional development certification focused on **self-assurance and personal growth**.
- Actively participated in **Java coding and interview preparation training** to strengthen programming and problem-solving skills.

Education

Adichunchanagiri Institute of Technology

B.E. – Data Science — CGPA: 7.4

St. Mary's Pre University College

Pre-University — Percentage: 85.166%

St. Mary's High School

Secondary School Leaving Certificate — Percentage: 82.4%
